# ORYX

**Oryx Aviation Services LLC (ORYX)** is the premier helideck and heliport inspection, friction testing and consultancy company in the UAE, KSA and MENA region. Since 2015 ORYX has been very active in applying and enforcing UAE GCAA AMC 70/71/72 standard as applicable in the UAE, as well as the UK CAA CAP 437 standard in KSA and other parts of the world. It's background and expertise stem from helideck/helicopter operations outside of the North Sea/UKCS (as well as inside) - specifically in Asia, South America, Africa and the Middle East and it is this global experience that sets them apart.

Since inception, ORYX has brought a truly holistic helideck and heliport services to the market, with the aim of providing effective solutions to all landing sites related requirements. ORYX services include but not limited to:

- Helideck and Heliport Audit / Inspections
- Helideck and Heliport Friction Testing
- Helideck and Heliport Design Consultancy
- Helideck and Heliport Manuals and Operating Procedures Writing
- Construction and Implementation of Helideck and Heliport Safety Management Systems
- Helideck and Heliport Crew Training Courses
- Support with or the full writing of Operational Risk Assessments and Safety Cases for Helideck and Heliport Operations
- Auditing of Helicopter Operators where applicable

## Helideck and Heliport Audit / Inspections

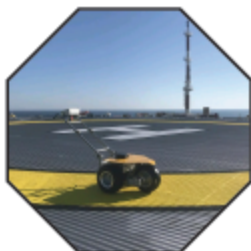

- ✓ Full and professional inspections by experienced and qualified personnel as per International and / or Regional Regulations and Guidelines, such as UAE GCAA AMC 71, UAE GCAA AMC 70, UK CAA CAP 437 and ICAO Annex 14, Volume II (ICAO Heliport Manual).

- ✓ Full support with the closeouts until final compliance is approved. Even after approval ORYX are on hand right up until the inspection renewal date with written and verbal support to your helideck/heliport related questions and requirements.

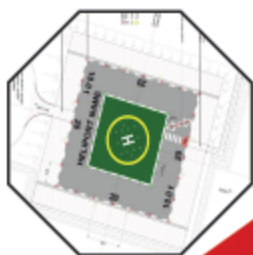

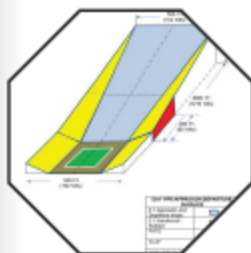

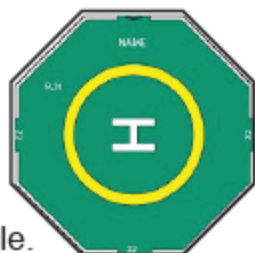

## Helideck and Heliport Surface Friction Testing

Offshore Helideck and Onshore Elevated Heliport Surface Friction Testing, Using the Findlay Irvine Micro GT Helideck Friction Tester

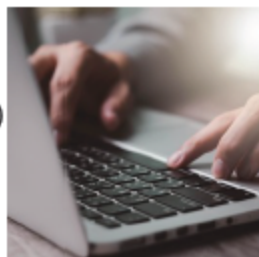

## Helideck and Heliport Design Consultancy

Design/Verification of Helicopter Landing Sites following Local and International Regulations as applicable.

## **Helideck and Heliport Manuals and Operating Procedures Writing**

- Helideck and Heliport Operations Manual including ERM and SOP
- Safety Management System (SMS)
- Support with or the full writing of Operational Risk Assessments and Safety Cases for Helideck and Heliport Operations.

## **Helideck and Heliport Crew Training**
